

VICKY

Frontend Developer | ReactJS | API Integration | Performance Optimization

📞 7814239292 @ vickyverma2026@gmail.com @www.linkedin.com/in/vicky-verma-950b19176 📍 Mohali, Punjab

SUMMARY

Frontend Developer with 4 years of experience in designing responsive UIs, API integration, and leveraging modern technologies like ReactJS, JavaScript, and TypeScript. Skilled in state management (Redux, Context API), performance optimization, debugging, and creating scalable, user-focused solutions.

EXPERIENCE SECTION

Sr.Frontend Developer

Fiducia Accounting Services Pvt. Ltd

📅 04/2023 - Present 📍 Mohali, Punjab

A company that specializes in providing accounting and financial services.

- Lead a team of 5+ developers to deliver scalable web applications with ReactJS, improving development efficiency by 25%.
- Implemented reusable component libraries, reducing code redundancy by 30%.
- Optimized interfaces for performance and cross-browser compatibility, enhancing user experience.
- Managed project timelines, ensuring adherence to agile methodologies and delivery deadlines.

Frontend Developer

Duple IT

📅 08/2022 - 04/2023 📍 Mohali, Punjab

A technology company providing IT solutions.

- Built interactive, user-friendly web interfaces for various client projects using ReactJS and TypeScript.
- Developed robust state management solutions with Redux and Context API to streamline application workflows.
- Integrated APIs to enable seamless frontend-backend communication, reducing latency by 15%.

Frontend Developer

ECHO India

📅 08/2021 - 08/2022 📍 Okhla Phase 3, Delhi

A social enterprise dedicated to advancing health and education in underserved communities.

- Developed modular and scalable components for the **iECHO Platform**, enabling efficient teleECHO program management.
- Designed responsive user interfaces, achieving a 20% increase in user engagement.
- Automated reporting and session reminders, enhancing operational efficiency by 30%.
- Collaborated with global teams to ensure high-quality deliverables in a product-based environment.

Frontend Development Intern

ToXSL Technologies Pvt

📅 03/2021 - 08/2021 📍 Mohali

- I built interactive web interfaces with ReactJS, implemented Redux for state management, and integrated APIs.

PROJECT

iECHO Platform

Developed a teleECHO management system with automation, secure data handling, and tools like reminders and reporting, enabling global hubs to scale efficiently.

Salon Management System

Created a platform for salon management, offering appointment booking, in-house refreshment services, and employee management based on hourly rates and experience

FMS (Forecourt Management System)

Designed a platform for forecourt operations, including real-time monitoring, dynamic pricing, and detailed reporting. Integrated third-party tools like TLM Technologies to enhance functionality.
